Detailed Action

1. This is in response to Application filed 06/22/10.
2. Claims 48 – 43 are pending.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

4. Claims 48 – 53 are rejected under 35 U.S.C. 102(e) as being anticipated by Kemp et al. US 2003/0200289.

Regarding claims 48, 52 and 53, a remote install method for a program in a network, said method comprising:

Acquiring printer information on a plurality of printers provided in the network [0006];

managing client information on a plurality of client apparatuses included in the network [0052];

storing a client management table that manages, for each of the plurality of client apparatuses, (a) printer information on at least one of the plurality of printers to be used in the client apparatus and (b) at least one extended function program of a core printer driver for each of the at least one printer, based on the acquired printer information and the managed client information [0051];

displaying a screen for updating the stored client management table, wherein a manager is allowed to select on the screen (a) one of the plurality of client apparatuses, (b) one of the at least one printer to be managed for the client apparatus, and (c) one of the at least one extended function program for the printer [0030 – 0044]; and

sending, to the client apparatus selected on the displayed screen, a core printer driver for the printer and the extended function program for the printer that have not been installed in the client apparatus, in accordance with the updated client management table [0044].

Regarding claim 49, the remote install method according to claim 48, wherein the extended function program is (a) registered as an object to be

supported by an inter-object communication function provided by an operating system of the client apparatus, (b) connected to a driver of a device connected to the client apparatus by the inter-object communication function, and (c) called in a form decided in advance [0032, 0046].

Regarding claim 50, the remote install method according to claim 48, wherein the sending is performed in accordance with designation of the client apparatus and an install starting instruction entered via an input unit [0035].

Regarding claim 51, the remote install method according to claim 48, wherein, in the displaying, the manager is allowed to select (a) at least two printers to be managed for the client apparatus and (b) respective different extended function programs for the at least two printers [0034].
